### LANGUAGE

### EXPERIENCES

#### ALFA CONNECTIONS PTE LTD

##### Application Developer

December 2019 - Present

- Skilled in application development, UI/UX design, data migration, permission/security configuration, testing, documentation, and troubleshooting.
- Experienced in delivering end-to-end solutions on the Microsoft Power Platform and SharePoint Online, from requirements gathering to deployment.
- Provide ongoing application support and enhancements, ensuring solutions remain aligned with evolving customer needs.
- Collaborate closely with stakeholders to design and implement efficient, user-focused applications that improve business processes and productivity.

#### Successfully Implemented Projects

##### Educational & Research Management Forms – Leading Singapore Medical School (Education Sector)

- Implemented over 10 Power Apps forms integrated with Power Automate flows and SharePoint Online to streamline data collection and process management.

##### SharePoint Proof of Concept – Real Estate Investment & Development Company (Property Sector)

- Delivered Power Automate flows to manage SharePoint document uploads and facilitate efficient migration processes.

##### Grower Management System – Global Food & Beverage Manufacturer (Agriculture Supply Chain)

- Developed multiple Grower Management applications for data capture, approval workflows, and automated document/report generation using Power Apps and Power Automate.

**Resource Planning & Safety Management – Civil Engineering & Infrastructure Firm (Construction Sector)**

- Delivered Power Apps forms and Power Automate flows with SharePoint Online/Dataverse data sources, incorporating approval processes, third-party integrations, document generation, and data transformation.

**Finance & Security Pass Applications – Integrated Resort & Hospitality Group (Entertainment Sector)**

- Built multiple eForms with automated approvals, notifications, document generation, and report exports using Power Apps, Power Automate, and SharePoint Online.

**Finance Management Applications – Social & Healthcare Services Organization (Non-Profit Sector)**

- Delivered applications supporting financial processes, including approvals, notifications, document creation, and reporting, leveraging Power Apps, Power Automate, and SharePoint Online.

**Power Platform Migration & Development – Regional Automotive Corporation (Automotive Sector)**

- Participated in a Power Platform tenant-to-tenant migration project, conducting environment assessments, migrating components using both third-party tools and manual methods, configuring permissions, and preparing proof-of-concept documentation.
- Developed Power Apps and Power Automate solutions for approval workflows and document management.

**HRMS & Internal Applications – Alfa Connections (IT Services Sector)**

- Implemented multiple internal applications, including a Human Resource Management System, using Power Platform and SharePoint Online/Dataverse, improving internal process efficiency.
