EXPERIENCES

ALFA CONNECTIONS PTE LTD

Power Platform Developer

March 2025 - Present

- Develop and customize applications using Power Apps to meet business needs.
- Built and managed workflows and business processes using Power Automate.
- Collected and analyzed data by using SharePoint or Microsoft Dataverse as database.
- Provided technical support and troubleshooting for Power Platform solutions to customer.

FRONTIS CO., LTD.

Power Platform Developer

Jan 2024 - Jun 2024

Development & Implementation

- Developed and customized business applications using Microsoft Power Apps to address operational needs.
- Designed and implemented workflow automation using Power Automate (RPA) to streamline business processes.
- Created and maintained interactive dashboards and reports in Power BI, integrated with Power Apps for real-time insights.
- Integrated APIs with core systems to enable seamless data connectivity and functionality.
- Collaborated with Business Analysts to gather user requirements and led/support SIT, UAT, and Go-Live phases for successful deployments.

Training & Consulting

- Delivered hands-on workshops enabling participants to build apps and automate workflows using Power Platform tools.
- Conducted AI Builder workshops, teaching participants how to implement AI features within Power Platform solutions.
- Provided consulting services to help organizations maximize their use of Microsoft Power Platform, driving efficiency and digital transformation.

MVERGE CO., LTD.

Power Platform Developer

Aug 2024 - Feb 2025

Development & Implementation

- Developed and customized business applications using Microsoft Power Apps to address operational needs.
- Designed and implemented workflow automation using Power Automate (RPA) to streamline business processes.
