EXPERIENCES

ALFA CONNECTIONS PTE LTD

Senior Developer

2020 - Present

- Proficient in leveraging Microsoft Power Platform (Power Apps, Power Automate) and customizing SharePoint Online to design, develop, and deploy tailored solutions that automate business processes and boost productivity.
- Provide backup support during company-led Power Apps workshops by addressing participant questions and assisting with troubleshooting as users learn to build no-code/low-code business applications.
- Serve as Technical Lead, offering mentorship and technical guidance to team members while fostering a collaborative and knowledge-sharing environment.
- Engage in pre-sales activities by creating proof-of-concept/mockup applications that showcase customized solutions, helping to drive client engagement and support sales initiatives.
- Assist in coordinating and managing small-scale application projects, collaborating with cross-functional teams to ensure on-time delivery, while actively contributing as a developer by coding, testing, and troubleshooting key features.

Successfully Implemented Projects

Custom E-Forms Development – Prominent Singapore University (Education Sector)

- Designed and developed 4 internal Power Apps applications to streamline key administrative processes, enhancing staff and faculty productivity.
- Created intuitive, user-friendly interfaces to ensure ease of adoption and effective utilization by end users.

Digital Workflow Solutions – Leading General Insurance Company (Insurance Sector)

- Served as a dedicated Power Apps Developer via outsourcing, collaborating closely with client stakeholders to gather requirements and deliver tailored solutions.
- Developed 7 custom Power Apps applications improving operational workflows and user experience.
- Actively participated in client meetings to present updates, incorporate feedback, and deliver continuous improvements.
- Provided ongoing support and maintenance post-deployment, addressing issues and enhancement requests promptly.

EXPERIENCES

Successfully Implemented Projects

Form Digitalization – Debt Collection Agency (Financial Services Sector)

- Developed an IT Change Request form using Power Apps integrated with Power Automate for automated PDF report generation and email notifications.

Digital Transformation – Marine Shipping Operator (Logistics & Shipping Sector)

- Designed and implemented compliant digital forms, replacing manual email-based processes with automated workflows using Power Apps and Power Automate.
- Automated email notifications and CSV report generation to improve efficiency, traceability, and reduce processing times.
- Created a trouble report form that replaced manual Excel processes, enabling real-time data capture, automated workflows, and enhanced reporting accuracy.

GLOBAL CONSULTING AND PROFESSIONAL SERVICES FIRM

Application Development Analyst

2016 - 2020

- Supported PeopleSoft applications for accounting and finance processes within a multinational hospitality client environment.
- Participated in the full software development life cycle (SDLC), including designing, coding, testing, implementing, maintaining, and supporting applications to ensure timely and on-budget delivery.
- Contributed to continuous improvement initiatives to enhance project efficiency and application performance.
- Maintained and updated application code, proactively researching and resolving technical issues to ensure system stability.
- Provided technical guidance and mentorship as a senior team member, supporting junior colleagues' professional growth and fostering a collaborative team environment.
