

G. R. I.

CLOUD ADOPTION ENGINEER | ASSISTANT SOLUTIONS MANAGER

IT professional with 10+ years of experience in designing, implementing, and managing enterprise IT solutions. Skilled in Microsoft 365, Azure infrastructure, and Microsoft Active Directory, with expertise in both SaaS and IaaS environments. Possesses in-depth knowledge of Office 365, Enterprise Mobility + Security, and Azure virtual machines, storage, networking, and security. Experienced in Windows Server, Active Directory, and Exchange on-premises deployments, with a strong understanding of the Power Platform.

SKILLS

- **Infrastructure & Server Technologies:** Deep experience with Windows Server (2008–2019), virtualization platforms (Hyper-V, VMware, Azure), and enterprise-grade backup and disaster recovery solutions (Veeam, Azure Backup, Azure Site Recovery).
- **Identity & Access Management:** Skilled in designing secure identity architectures using Microsoft Active Directory (On-Premises) and Microsoft Entra ID.
- **Cloud & Hybrid Solutions:** Proficient in Microsoft 365 (Modern Work, Security, and Compliance), Exchange (2010–2019), and hybrid cloud deployments.
- **Migration Expertise:** Proven track record in planning and executing email, data, and server migrations with minimal disruption.
- **Endpoint & Device Management:** Experience in Windows device lifecycle management and policy enforcement.
- **Networking & Security:** Strong understanding of enterprise networking and security solutions including Microsoft Defender XDR, Defender for Cloud, and Azure Sentinel.
- **Power Platform Solutioning:**
 - **Power Apps:** Designing low-code business applications tailored to client workflows.
 - **Power Automate:** Automating business processes to improve operational efficiency.
 - **Power BI:** Building interactive dashboards and reports to support data-driven decision-making.
 - **Copilot Studio:** Creating AI-powered conversational experiences and automation using Microsoft Copilot Studio.
- **Presales & Solution Design:**
 - Skilled in requirement gathering, solution mapping, and creating compelling technical proposals aligned with customer business goals.
- **Customer Engagement:**
 - Experienced in conducting product demos, proof-of-concepts, and technical workshops to support sales cycles.

EXPERIENCES

ALFA CONNECTIONS PTE LTD

Cloud Adoption Engineer |

Assistant Solution Manager

November 2021 - Present

- Led customer engagements and solution initiatives focused on Microsoft technologies, including Modern Work (Microsoft 365, Teams, Intune), Business Applications (Power Platform), and Security & Compliance (Defender, Purview).
- Managed the FastTrack program for Indonesian customers, driving successful cloud adoption and user enablement in alignment with Microsoft best practices.

Successfully Implemented Projects

- Successfully led the implementation of Microsoft Information Protection for a leading agriculture and seed production company, enabling data classification, labeling, and protection across Microsoft 365 workloads; ensured compliance with industry standards and improved data governance through strategic deployment and user enablement.
- Contributed to the delivery of Microsoft's Customer Success Offer program for a key government anti-corruption agency, driving adoption of SharePoint and Microsoft Teams for secure collaboration and productivity; additionally supported the organization through the Microsoft FastTrack Program to initiate deployment of Microsoft Information Protection, enabling sensitive data protection and compliance readiness.
- Contributed to the pre-sales and solution design of a Power Platform project for a global education institution, supporting the implementation of custom business applications including time attendance, e-leave, and operational workflows; collaborated with stakeholders to align business needs with technical capabilities using Power Apps and Power Automate.
- Contributed to the pre-sales engagement for Microsoft Information Protection and Data Loss Prevention (DLP) at a leading energy and mining company, focusing on articulating business value, demonstrating solution capabilities, and aligning Microsoft 365 security features with the customer's data protection needs; supported stakeholder discussions to build confidence in adopting MIP as a strategic solution for safeguarding sensitive information.

CLOUD SOLUTIONS AND IT SERVICES

PROVIDER

Cloud Technical Specialist

December 2020 - October 2021

- Supported cloud implementation and advanced service delivery for enterprise clients, specializing in Microsoft solutions such as Microsoft Azure and Microsoft 365 including security and compliance solutions.
- Provided ongoing technical support for managed service customers, ensuring secure, scalable, and high-performing cloud environments in collaboration with Microsoft and other technology partners.

IT SOLUTIONS AND SYSTEM INTEGRATION

PROVIDER

System Engineer and Adoption Specialist

July 2014 - November 2020

- Delivered infrastructure and system solutions for enterprise clients, focusing on Microsoft technologies such as Windows Server, Active Directory, Exchange, and Microsoft 365
- Collaborated with Microsoft and other Products to implement secure, scalable, and optimized IT environments.
